WOULD CUT A NARROW CHANNEL THROUGH
CORAL REEF TO ENLARGE THE HARBOR

Editor Advertiser: Much has been written of late concerning neces-
 sary changes and additions to our harbor and waterfront. Permit me to
 give in a few words my idea of some years ago.

Mr. W. R. Castle's plan of dredging out the Nuuanu stream, also a por-
 tion of Chinatown with its microbes, is a good one. This plan has been ap-
 proved by many of us, and some captains think it the proper place for a
 good dry dock. Aside from the expenses of purchasing the said lands, with
 the hindrances to traffic during the construction, also the inconvenience of
 draw-bridges when completed, if the town should ever be quarantined again
 the conditions would be deplorable and far worse than they were during the
 plague.

Why not look into the suggestion I made some time ago, viz., cut a
 250-foot channel through the coral reef, running in a line from the lighthouse
 to the bell buoy, using the material to make a good, substantial wharf and
 dry land for warehouses, coal piles and lumber? Such a waterway would en-
 able fore-and-aft vessels and often square-rigged ships to sail in and out,
 without the use of a tug, and ocean steamships to enter and depart without
 turning around, using said wharf at all times, whether under quarantine or
 otherwise.

In case of quarantine there would be no need of delays to ships, as of
 late, and lessen very much the difficulties that would occur in case Mr. Cas-
 tle's plans should be adopted. There are objections to any and all plans
 that have been or may be offered, but the only serious objection that is
 made to this proposed plan is that the tide and currents running in and out
 would of course trouble the ships lying alongside the sea wall. Our tide
 only rises about eighteen inches, and there are other passages to take
 part of the flows. The winds from the south only blow a few days in the
 year and the difficulties would not exceed those of other ports in other parts
 of the world. These difficulties could be overcome or very much lessened.

I take it for granted it is the intention sooner or later to commence a cut
 from the cattle pen to Pearl Harbor and thus afford wharfage and anchor-
 age for nearly all the American ships afloat at one time.

AN APPEAL FOR
MANILA LIBRARY

Mrs. Kincaid Will Endeavor to In-
 terest Honoluluans in Increas-
 ing the Fund.

Mrs. William M. Kincaid is about to
 begin an active campaign in the inter-
 ests of an American Library for Ma-
 nila, the object being to provide the
 American soldier in Luzon with good
 books. An appeal was sent from Ma-
 nila broadcast over the United States
 by a committee consisting of C. C.
 Bateman, Chaplain, U. S. A., Mrs. S.
 O. L. Potter and D. M. Carman. Mrs.
 R. C. Greenleaf of San Francisco has
 been instrumental in organizing the
 association, and is now the first direc-
 tor of the library, with headquarters in
 Manila.

What the soldiers, sailors and Ameri-
 can citizens in Manila need are good
 books, and books found in such a
 manner as to do credit to the library
 upon whose shelves they may rest.
 The library committee has already
 learned by experience that donations
 of literature are disappointing. Poorly
 printed books on poor paper and cheap
 bindings quickly fall to shreds in the
 humid climate of the Philippines, and
 books will have to be purchased with
 the greatest care. Therefore it is the
 purpose to secure the bequest of
 philanthropic men and women, which
 with long and generous subscription
 lists will bring the whole plan to an
 early consummation.

Already the library has been opened
 with four thousand books, some very
 valuable and many very poor, but all
 appreciated by the Americans in Ma-
 nila. The city is meagerly supplied
 with English printed books and the
 literature which has been sent there
 by the good-hearted people of the
 mainland and Honolulu as well, has
 not always been what is necessary to
 lay the foundations of a fine library.
 The men are eager to read the same
 class of books they were accustomed
 to before entering the army for for-
 eign service. It is hard to appreciate
 the lack of good reading matter in Ma-
 nila unless one was actually experi-
 enced the lot of the soldier waiting
 patiently for the arrival of mails from
 home. The news stands have as yet
 been slow to send for books, and most
 of the few that do arrive are eagerly
 bought up by the healthy soldiers, and
 those in the hospitals generally get
 left.

The officers of the Library are Mrs.
 C. R. Greenleaf, director; Mrs. E. H.
 Liseum, first vice, director; Mrs.
 Sherman, associate corresponding sec-
 retary; Dr. E. W. Pinkham, recording
 secretary; the Hongkong & Shanghai
 Banking Corporation, treasurer, and
 Mrs. Egbert (widow of Colonel Eg-
 bert), librarian.

It is proposed that this library shall
 be an intellectual treasury, established
 by the people of the United States—
 the first gift of occidental civilization
 to the new Oriental metropolis—and
 Mrs. Kincaid is enthusiastic over the
 help she expects to gain in Honolulu.

Rifle Butts Needed.

The rifle butts at Iwilei at present
 being used by the police for practice
 may also be utilized for National
 Guard range work. The old military
 butts at Kakaako have been appropri-
 ated by the Board of Health, and will
 doubtless be burned when the Board
 is ready to vacate them as being in-
 fected premises. The presumption is
 that a board fence will enclose the site

and the Regiment will perforce have
 to seek new grounds. The police de-
 partment is confident of winning in
 any rifle contest with the military
 teams and sharp practice will no doubt
 result.

New
Spring
Neckwear

is coming. Cupid calls it good and beautiful. No article of wear
 of so many patterns and makes as does neckwear. When you see the
 old that you thought beautiful grows stale. We have just received
 new spring stock and if you don't say that they are swell when you
 them we will quit importing.

WE ARE NOT exactly selling our goods at auction, but we are
 the next best thing by selling them at greatly reduced prices. It is our
 habit to carry goods over from one season to another, so we must sell
 remnants of sizes at once, and at such prices that you will save money
 buying of us. These goods must sell even if we incur a war in doing
 Boys' and Men's Clothing, Underwear and Men's Furnishings. We are
 business. Call and have a look.
